

WEEK OF RIVERS - Non-Paddler's Option

The Ultimate Whitewater Vacation

Costa Rica Rios 2011/2012

Welcome to the Best Paddler's Partners Trip

Day 1 - Arrival

Arriving in Paradise

Your Costa Rica Rios guide will greet you at the Juan Santamaria International airport in San Jose, Costa Rica (SJO), upon your arrival. After leaving the airport, we begin the journey to our headquarters in Turrialba, about a two hour drive through orchards, small towns and beautiful coffee fields.

Welcome to Your Home Away From Home

Upon arrival in Turrialba you will settle into your home away from home: comfortable accommodations with tropical courtyard, Volcano view balcony and relaxing hammock area. This evening you will enjoy a delicious and authentic Costa Rican meal prepared by our Chef, Flor. This will be a great opportunity to practice your high school Spanish, as you enjoy Tico company with dinner. The remainder of the evening is spent getting to know your fellow adventurers for the week while playing Bola Negra, the Costa Rican version of pool around our locally hand-made table.

Day 2 - Canyoning/Ziplines

Kick Start the Week with Fun

After breakfast, you will be picked up from the Bed & Breakfast and taken to the Canyoning course. You will get to experience the thrill of rappelling and descending cliffs and waterfalls within the beautiful Puente Vigas Canyon. The Canyoning site is located in Calle Chirraca, a small, modest, yet lush place near the town of Turrialba. You will rappel down four waterfalls, zip line down four canopy cables, descending down two tall trees and walking across a 132 foot hanging bridge - all giving you an unforgettable adrenaline rush! This tour takes approximately 3 to 4 hours and includes a delicious lunch. The afternoon is free for you to explore the quiet and friendly town of Turrialba. When the paddlers return to our Bed & Breakfast you will have time to unwind with them and join them for a hearty home cooked dinner.

Week of Rivers - Non-Paddlers Option

Day 3 - Relaxing at the Sarapiquí

Seeing a Little More of Costa Rica

We will hit the road just after an early breakfast and travel to the Sarapiquí Region, located on the north side of the Caribbean slope. The Sarapiquí is often referred to as the “Jewel of Costa Rica” with clear water, deep pools and excellent whitewater. After sharing lunch with the paddlers you will join a boat ride down calm rivers to do some wildlife spotting. The area is blessed with amazing flora and fauna and you will have a great chance of seeing toucans and other tropical birds. Tonight the paddlers will join you at the hotel in time for dinner.

Day 4 - Rainforest Hike, Sarapiquí

Filling up on Knowledge

Hike the trails of a Rainforest Reserve for 2-3 hours with a trained naturalist guide to help uncover and interpret the secrets of the tropical rainforest. Discover wildlife hideouts, learn rainforest natural history, and hike some of the more remote trails of the Reserve. By joining this hike you will be contributing to Tirimbina Rainforest Center. TRC is an internationally recognized, non-profit organization created to conserve the tropical rainforests of Costa Rica; provide environmental education to the local community, students and ecotourists; and accommodate scientific research. Located within the rainforest and river environments of Sarapiquí County, TRC is a Private Wildlife Refuge which protects 345 hectares (852.5 acres) of mid-elevation (pre-montane) forest through which 9km (5½ mi.) of trails pass. One third of the forest is used for ecotourism and environmental education, keeping the majority of the Reserve naturally intact. TRC’s conservation education efforts and beautiful natural rainforest have made it a primary tropical science research center as well as a popular ecotourism travel destination. After your morning hike, you will join up with the paddlers for lunch and then we will return to Turrialba in time for a home-cooked Costa Rican dinner.

Day 5 - Bird Watching or Archaeology?

Early Bird Days Gone By...

Start the day with a very Early Morning Bird Mist Netting Tour at CATIE – 5.30am-10am, followed by a late breakfast. This CATIE tour accompanies BMP scientists during their regularly scheduled mist-net monitoring of 6 different landuses on the CATIE Campus. You will learn about the BMP and see the birds in the hand as measurements are made. Staff will explain banding procedures and regional efforts to protect avian biodiversity in agricultural landscapes. CATIE is an acronym in Spanish for the Center of Investigation and Education of Tropical Agriculture.

Days Gone By...

In the afternoon you will visit Guayabo National Monument. This is Costa Rica's most important archaeological site and is currently under investigation in an effort to unearth its secrets. Archaeologists are still unclear about the prehistory and significance of the site. It seems to have been inhabited perhaps as far back as 1000BC and abandoned around 1400AD before the Spanish Conquistadors arrived. It is an interesting site with stone roads, aqueducts, mounds, tombs, retaining walls and petroglyphs. The guides there have a wealth of knowledge of the culture, history, flora and fauna.

Day 6 - Lower Pacuare (Day 1)

Rafting to Our Jungle Hide Out

This 24 kilometer (17 miles) class III/IV section is your paddling gem today. This is the most popular run on the Pacuare, often said to be one of the top five whitewater river sections in the world. We will put-in a bit higher than other groups and enjoy an additional 4 kilometers of whitewater and rapids as we raft alongside the kayakers to our riverside Jungle Lodge. To spend a night along the shores of the Pacuare river is an experience every person should enjoy at least once in their lives. We light the camp with candles and prepare delicious tropical cuisine in our kitchen with all amenities. The camp is complete with flush toilets, showers, raised platform cabins with real beds and fully landscaped grounds. The whitewater on the first day is class II and III, fun surf waves and rolling rapids are abound.

Day 7 - Lower Pacuare (Day 2)

World Class Rafting Experience

After our delicious breakfast we launch and begin preparing for the action downstream. There are about 3 kilometers of warm-up rapids before we enter Huacas canyon and the first of several class IV rapids. The river then opens up as we raft mostly class III whitewater until Cimarrones, a steep and technical class IV drop. There are still 5 more kilometers of whitewater action before we arrive in the Caribbean flatland town of Siquirres where we take out. You will experience all these thrilling class III and IV rapids in a guided raft. We then return to Turrialba for an evening goodbye fiesta at our headquarters.

Packing Tips

For a more enjoyable experience in Costa Rica and during your *Week of Rivers* trip, it is essential to pack appropriate gear and accessories. Packing light and efficient is also necessary for this travel itinerary.

Fortunately Costa Rica enjoys a very consistent tropical climate. The average daytime temperature in Turrialba is 82° (27° Celsius) and along the coast the temperature varies from 70 to the 90's. During the dry season (December through April), sunny blue skies and warm days are common. Throughout the rainy or green season (May through November), the typical pattern is sunny and hot in the morning and a shower in the afternoon. Water temperatures hover around 70-75° (21-23° Celsius) year-round, making paddling pleasant in a splash or shorty top.
